

-
1. _____ is the process whereby the sun turns water into vapour.
 - a) condensation
 - b) evaporation
 - c) transpiration
 - d) convection

 2. The ozone layer protects the earth from the harmful effects of _____ from the sun.
 - a) condensation
 - b) precipitation
 - c) evaporation
 - d) radiation

 3. If sea levels continue to rise there will be _____ flooding.
 - a) widespread
 - b) congested
 - c) intense
 - d) minimal

 4. The objective of the Kyoto Protocol was to achieve _____ of greenhouse gas concentrations in the atmosphere.
 - a) solidarity
 - b) fluctuation
 - c) concentration
 - d) stabilization

 5. _____ can result from greatly reduced rainfall due to climate change or human practices such as deforestation.
 - a) wildification
 - b) wilderness
 - c) desertification
 - d) desertness

 6. A great deal of CO₂ production is the result of traffic _____.
 - a) obstruction
 - b) jamming
 - c) overcrowding
 - d) congestion

ANSWERS:

1. _____ is the process whereby the sun turns water into vapour.

a) condensation – Sorry, this is the process whereby vapour turns into water.

b) evaporation – Well done, this is correct!

c) transpiration – Sorry, this is the process whereby plants emit water.

d) convection – Sorry, this refers to the movement of warm and cool air.

2. The ozone layer protects the earth from the harmful effects of _____ from the sun.

a) condensation – Sorry, this word refers to water.

b) precipitation – Sorry, this word refers to rain and snow.

c) evaporation – Sorry, this word refers to water.

d) radiation – Well done, this is correct!

3. If sea levels continue to rise there will be _____ flooding.

a) widespread – Well done, this is correct!

b) congested – Sorry, this word does not collocate with 'flooding'.

c) intense – Sorry, this word does not collocate with 'flooding'.

d) minimal – Sorry, this word means 'very little' - you need a word which means 'a lot; in many places'.

4. The objective of the Kyoto Protocol was to achieve _____ of greenhouse gas concentrations in the atmosphere.

a) solidarity – Sorry, this word refers to an agreement about responsibilities and interests among the members of a community.

b) fluctuation – Sorry, this word means 'varying levels'.

c) concentration – Sorry, you need a word that describes the level of greenhouse gas concentrations.

d) stabilization – Well done, this is correct!

5. _____ can result from greatly reduced rainfall due to climate change or human practices such as deforestation.

a) wildification – Sorry, this word does not exist in English.

b) wilderness - Sorry, you need a word to describe a situation where there is very little rain.

c) **desertification** – **Well done, this is correct!**

d) desertness – Sorry, this word does not exist in English.

6. A great deal of CO2 production is the result of traffic _____.

a) obstruction – Sorry, this is not a bad choice, but one of the other words is better.

b) jamming – Sorry, choose a more 'academic' word.

c) overcrowding – Sorry, this word does not collocate with 'traffic'.

d) **congestion** – **Well done, this is correct!**
